General Commercial Conditions:

Some of the parts we supply are racing sports parts which do not correspond with any authorization from the Federal Vehicle Authority. Almost all road parts however do have a general type approval.

General

We provide our supplies and services exclusively on the basis of these commercial conditions. The commercial conditions of our business partners are also non-binding for us as long as we do not explicitly contest them. Deviating agreements must always be in writing.

Quotations and prices

All our quotations are provisional until final confirmation (tel. order acceptance at the risk of the customer). These commercial conditions are accepted along with the order. For price calculations the prices valid at the date of delivery or the prices on the latest price list will apply. We have the right to pass on price increases made by our suppliers. Price increases to non-traders are correspondingly permitted if more than 3 months have passed between completion of the contract and the delivery. Special orders are only accepted with a 50% advance payment. The order imposes the duty of accepting the goods ordered. The statutory VAT, as well as packing and transport costs will be added to our prices.

Shipment and delivery

All times for deliveries and services are subject to change. Binding time schedules must have been sent in writing by us. Our inability to fulfil the contract through no fault of our own will lengthen the delivery time by the duration of the hindrance. Six weeks after exceeding the binding or non-binding delivery date, the buyer can request that we deliver within an appropriate period of time – this then brings us into arrears. He can then withdraw from the contract - but no claims for damages are possible. We will deliver to non-traders against a prepayment or payment on delivery per DHL. The transport costs will be calculated and added to the payment on delivery amount (including a flat rate for packing). Self-collection is possible by agreement. Deliveries by DHL are also possible to traders against an invoice, which must be paid within 10 days. Discounts etc. may not be claimed. In the event of payment arrears we reserve the right to charge interest of 3 % above the respectively-valid discount rate. If the customer requires an alternative method of dispatch then he must pay any additional costs involved. When the consignment is transferred to the shipping agent, in other words when it leaves our warehouse, the risk is transferred to the buyer. We do not arrange for any transport insurance, we only supply on the basis of an invoice and at the risk of the buyer. Ordered and sent goods must be accepted, if not we have the right to store them at cost to - and at the risk of - the customer or to claim 10 % of the goods value.

Reservation of ownership and guarantee

We reserve the right of ownership of all goods delivered by us until all claims – including any future and associated claims from the business relationship – are fulfilled. The reservation of ownership also extends to new goods which are manufactured by further processing our products. The buyer has the right to sell on the goods supplied under the reservation of ownership within the course of regular business dealings. The buyer will transfer all claims from the onward sale to us. In the case of defects upon delivery, any complaints arising must be made in writing within 8 days, later complaints will not be accepted. Insofar as deficiencies are present, compensation will be provided in the form that the item delivered will be made good or a replacement delivery will be made. The item should be sent back to us at no cost to us. We will not accept items for which we have to pay delivery charges. Any additional guarantee and replacement claims are excluded.

Miscellaneous

Alterations to the goods we have delivered are not permitted nor is any alteration to – or removal of the brand name permitted. In the case of repairs, if nothing else has been agreed, the price will be established after completion of the work – cost estimates are non-binding. Insofar as damages arise in the execution of this work, liability will only be accepted in the event of gross negligence. Any form of liability is completely excluded for damages which are based on slight negligence.

Final agreements

The place of fulfillment and the exclusive location of the court is the headquarters building of our company. All agreements require the written form to be effective.

Status: 03/2007
